Azteca

Advertising and Interactivity

The Azteca model was designed specially for outdoor applications.

This model can be manufactured in stainless steel or painted steel (available in all RAL colors) using steel plate of 1,5mm to 2,5mm which ensures the stability and rigidity of the all structure.

This Kiosk is designed specially for information and/or multimedia advertising purposes. At the top is placed a courtesy light.

This kiosk was specifically designed to pass dynamic advertising contents and can support large displays, (32" to 100"). The lower monitor provides interactive informations.

The area where the PC will be installed has security locks, general switch and is easily detachable, leaving enough space for the installation and access to a minitower PC.

The area where computer is installed and possible peripherals (card readers, coin acceptors, etc.), is protected with access through a security lock and includes a base with three power plugs.

The Azteca Model can be equipped with a Atom CPU with a 160 GB hard drive, 1 Gb Ram Memory, a 128Mb graphic card and a 10/100 mb ethernet, and Windows 7 Starter.

This kiosk can be produced with glass protection (top and 2 laterals) for outdoor environments.

Technical Specifications Azteca Kiosk

Dimensions: H2800 x W600 x D150
Weight: aprox. 140 Kg.
